Hi George,

I missed you today and I will be in training tomorrow so I am sending a note - How much time do you think you will need to review the AE request beyond the concern I noted about it not being submitted with any DOGGR analysis included? Based on your answer I can either wait to call Tim or talk to him before your review is completed, depending on how that falls within the 45 days. Can you let me know how much time you think you would need to review? Thanks!

Yes, but let's hold off until this has been reviewed. Further, the regs require that we must state the reasons why it is being denied.

Ok, I can call Tim. George can you see if you can find something more recent in your files?

I found the attached file in the pile of files George left for me from his clutter clearing. It is a 20 year old package for an AE submitted to EPA for approval by DOGGR and I think it is more along the lines of what we need from them. I recall seeing other ones that are more recent maybe George can locate.

Ex. 5 - Deliberative Process

Michele
